MOUNTAIN-STYLE FARMHOUSE W/ ACREAGE - This unique property offers an updated/renovated farmhouse with a mountain flair and 11.192 beautiful acres, most of which is gently sloping, fenced pasture. Start your mini-farm with mature blueberry bushes and apple trees already in place and approximately 10 acres of pasture suitable for crops or cattle/horses. Don't let the age of this home scare you. It was completely renovated between 2015-2019 including new wiring, plumbing, insulation, flooring (4" oak on main level & heart pine on upper level), heat pump (3 ton unit, zoned), metal roof and septic system. Just painted inside, floors refinished & water filter added. Includes outbuilding (wood on site for new floor) and 16x24 concrete pad behind the house which would make a great patio (large enough to add outdoor kitchen and/or fireplace). This unique property gives you options - simply live in & enjoy home w/ neighbor's cattle in pasture, turn into full-time mini farm, live in the house while building new up top, then rent existing home or use as guest house... whatever your heart desires. Convenient location only 7.4 miles from WJ, 20.5 miles from Boone and minutes away from New River.

Agent Remarks: Sellers are in the process of obtaining a written & recorded easement for spring & water line from neighbor. The spring has served the home since it was built in 1944 but an easement was never recorded. Property taxes shown reflect 2022 tax bill. Seller has wood on site to floor outbuilding. With acceptable offer, he will install the floor and repair the roof. Pasture area is currently in present-use value classification with Ashe County (used as pasture for neighbor's cattle). Buyer can reapply after closing if desired. Sellers understand that if buyer chooses not to reapply or application is denied, sellers will be responsible for paying any & all deferred taxes. Pasture lease is verbal and can continue or not at buyer's preference. D192
