Effective Date of Data Source(s)				04/22/2023			04/22/2023			04/22/2023			04/22/2023											
Analysis of prior sale or transfer history of the subject property and comparable sales According to tax records and the CMLS, the subject has not been sold or transferred in the past three years. Comparable #3 was transferred 11/15/22 for a nominal amount in an apparent arms-length transaction and was not sold or transferred again in the past year. According to tax records and the CMLS, no other comparables have been sold or transferred in the past year.																								
Summary of Sales Comparison Approach See Sales Comparison Approach in Supplemental Addendum																								
Indicated Value by Sales Comparison Approach \$ 460,000																								
Indicated Value by: Sales Comparison Approach \$ 460,000 Cost Approach (if developed) \$ 462,534 Income Approach (if developed) \$																								
Full consideration has been given to the sales comparison approach. The cost approach is not considered a reliable indicator of value due to the age of the subject and the speculative nature of depreciation. The income approach was not utilized due to the lack of rental data in this owner occupied area.																								
This appraisal is made ☒ "as is", ☐ subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or ☐ subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: The subject property is valued in as-is condition. No repairs are required.																								
Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is \$ 460,000 , as of 04/22/2023 , which is the date of inspection and the effective date of this appraisal.

PUD INFORMATION

I certify that, to the best of my knowledge and belief:

•The statements of fact contained in this report are true and correct.

•The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.

•I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.

•I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

•I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.

•My engagement in this assignment was not contingent upon developing or reporting predetermined results.

•My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

•My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.

•I have made a personal inspection of the property that is the subject of this report.

•The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Code of Professional Ethics and Standards of Professional Practice of the Appraisal Institute.

•The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.

As of the effective date, the long term market impact on the market ofrom the COVID-19 virus is unknown; however, the market has demonstrated over the past 2+ years of the virus that there is no negative impact on marketability or value. This assumption has been taken into consideration with regards to the estimate of reasonable exposure time.

COST APPROACH TO VALUE (not required by Fannie Mae)

Provide adequate information for the lender/client to replicate the below cost figures and calculations.

Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value)

The appraiser's opinion of site value has been derived utilizing land sales and the extraction method.

ESTIMATED	☐ REPRODUCTION OR	☒ REPLACEMENT COST NEW	OPINION OF SITE VALUE		=\$	80,000
Source of cost data	dwellingscost.com		DWELLING	2,228 Sq.Ft. @ \$	187.00	=\$ 416,636
Quality rating from cost service	5.5	Effective date of cost data	04/22/2023	0 Sq.Ft. @ \$		=\$
Comments on Cost Approach (gross living area calculations, depreciation, etc.)						=\$
Remaining Economic Life is estimated at 55 years. The cost figures were derived from local builder information and a blend of various cost sources. External depreciation considered/included in the cost approach (separately w/land and SF estimates-not a lump sum)			Garage/Carport	454 Sq.Ft. @ \$	52.00	=\$ 23,608
			Total Estimate of Cost-New			=\$ 440,244
			Less	Physical	Functional	External
			Depreciation	67,710		=\$ (67,710)
			Depreciated Cost of Improvements			=\$ 372,534
			"As-is" Value of Site Improvements			=\$ 10,000
Estimated Remaining Economic Life (HUD and VA only)			55 Years	INDICATED VALUE BY COST APPROACH		=\$ 462,534

PROJECT INFORMATION FOR PUDs (if applicable)

Is the developer/builder in control of the Homeowners' Association (HOA)?

☐ Yes

☒ No

Unit type(s)

☒ Detached

☐ Attached

Provide the following information for PUDs ONLY if the developer/builder is in control of the HOA and the subject property is an attached dwelling unit.

Legal Name of Project

Total number of phases

Total number of units

Total number of units sold

Total number of units rented

Total number of units for sale

Data source(s)

Was the project created by the conversion of existing building(s) into a PUD?

☐ Yes

☐ No

If Yes, date of conversion.

Does the project contain any multi-dwelling units?

☐ Yes

☐ No

Data Source

Are the units, common elements, and recreation facilities complete?

☐ Yes

☐ No

If No, describe the status of completion.

Are the common elements leased to or by the Homeowners' Association?

☐ Yes

☐ No

If Yes, describe the rental terms and options.

Describe common elements and recreational facilities.

Uniform Residential Appraisal Report

230420225
File # 230304032

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Uniform Residential Appraisal Report

File # 230304032

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Market Conditions Addendum to the Appraisal Report

230420225
File No. 230304032

MARKET RESEARCH & ANALYSIS

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address	8504 Hope Springs Ct	City	Huntersville	State	NC	ZIP Code	28078
Borrower	Michael & Rachel Galin						

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Inventory Analysis	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)	23	8	10	☐ Increasing	☒ Stable	☐ Declining
Absorption Rate (Total Sales/Months)	3.83	2.67	3.33	☐ Increasing	☒ Stable	☐ Declining
Total # of Comparable Active Listings	N/A	N/A	1	☐ Declining	☐ Stable	☐ Increasing
Months of Housing Supply (Total Listings/Ab.Rate)	N/A	N/A	0.3	☐ Declining	☐ Stable	☐ Increasing
Median Sale & List Price, DOM, Sale/List %	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend		
Median Comparable Sale Price	459,000	413,000	442,500	☐ Increasing	☒ Stable	☐ Declining
Median Comparable Sales Days on Market	3	18	4	☐ Declining	☒ Stable	☐ Increasing
Median Comparable List Price	N/A	N/A	485,000	☐ Increasing	☐ Stable	☐ Declining
Median Comparable Listings Days on Market	N/A	N/A	1	☐ Declining	☐ Stable	☐ Increasing
Median Sale Price as % of List Price	102.02	99.58	102.79	☐ Increasing	☒ Stable	☐ Declining
Seller-(developer, builder, etc.)paid financial assistance prevalent?				☐ Yes	☒ No	☐ Declining
				☒ Stable	☐ Increasing	

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.). Market transactions typically do not require unique financing. Financial concessions of between 1% to 3% are a normal part of the sales transaction.

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

While there are some foreclosures in the immediate area, they are selling for significantly less and do not appear to have an impact on the marketability of owner occupied and market rate homes such as the subject.

Cite data sources for above information. CMLS, realist.com, county assessor's data, GIS websites, available online resources

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

Neighborhood information on page one of the URAR pertains to all activity within the neighborhood. Subsequent information reported is mostly regarding comparable properties only. The above figures may also be skewed by fluctuations in the traditional buying and selling seasons. The 1004MC data was autogenerated by the local MLS system and is based on the parameters of the appraiser's search for comparables within the CMLS system. The system does not have the ability to accurately define the total amount of housing supply during the previous 7-12, or 4-6 month, therefore, this information has been marked unavailable. The information field "current-3 months" is the total amount fo current active comparable listings as of the effective date of the appraisal. Information reported on the 1004MC form pertains to the properties that are comparable to the subject in location, style, and GLA. The above figures may also be skewed by motivations of current owners and owners/agents' reluctance to price homes to current market conditions.

CONDO/CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project , complete the following:

Subject Project Data	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)				☐ Increasing	☐ Stable	☐ Declining
Absorption Rate (Total Sales/Months)				☐ Increasing	☐ Stable	☐ Declining
Total # of Active Comparable Listings				☐ Declining	☐ Stable	☐ Increasing
Months of Unit Supply (Total Listings/Ab.Rate)				☐ Declining	☐ Stable	☐ Increasing

Are foreclosure sales (REO sales) a factor in the project? ☐ Yes ☐ No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.

Fee Disclosure: Appraiser's fee: \$ 425.00

The measurements and dwelling sketch supplied in the appraisal report are for appraiser purposes of comparison to the comparable sales analyzed in the sales comparison analysis. The supplied sketch is not an architectural rendering of the subject dwelling and is not to be considered as such, as the appraiser is not a licensed architect. The gross living area stated in this report may or may not agree with the gross living area published by the tax assessor, the MLS or the builder for the subject or for the comparable sales. The home was measured according to the Square Footage Method for Calculating: ANSI Z765-2021. Measurements were taken in tenths of a foot and rounded to the nearest whole foot. The subject has 2,228 square feet of above-grade finished living area (GLA).

Exposure Time:

The definition of market value employed for this assignment includes a component of exposure time. Exposure time is the estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal. Based on statistical analysis and the examination of relevant sales history of comparable properties, the reasonable exposure time for the subject property type and value range is 0-3 months.

FIRREA certification statement - The appraiser certifies and agrees that this appraisal was prepared in accordance with the requirements of title XI of the Financial Institutions, Reform, Recovery, and Enforcement Act (FIRREA) of 1989, as amended (12 U.S.C. 3331 et seq.), and my applicable implementing regulations in effect at the time the appraiser signs the appraisal certification.

• URAR: Site - Highest and Best Use
Residential use is among those uses deemed legally permissible, physically possible and financially feasible. Thus, the current/proposed residential use is considered an adequate expression of the concept of highest and best use as improved/proposed to be improved. For existing houses, it is my opinion that there are no legally permissible uses that would economically justify the removal of the existing improvements at this time. My scope of work in evaluating highest and best use included meeting Fannie Mae's highest and best use guidelines, which state that "if the use of comparable sales demonstrates that the improvements are reasonably typical and compatible with market demand of the neighborhood and the present improvements contribute to the value of the subject property so that its value is greater than the estimated vacant site value, the appraiser should consider the existing use as reasonable and report it as the highest and best use." My highest and best use scope of work did not include a strict, theoretical highest and best use analysis which would include analyzing all legally permitted and physically possible uses based on the assumption that the site is vacant.

The contents of this report constitute a Real Estate Appraisal, and is limited to the individual home, townhome of condominium unit identified in this report.

SCOPE OF WORK:

Subject Section:

The appraiser utilized a physical inspection, MLS and realist/county tax records to report the information in this section. No deed or title was obtained by the appraiser.

The research of the prior listings of the subject, was completed by searching the MLS and/or tax records by address for the subject property. In doing this search, all "status" categories were included, meaning that the records for active properties, sold properties, expired listings, withdrawn listings, and listings under contract were searches.

Definition of market value:

The most probable price (in terms of money) which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: the buyer and seller are typically motivated; both parties are well informed or well advised, and acting in what they consider their best interests; a reasonable time is allowed for exposure in the open market; payment is made in terms of cash in United States dollars or in terms of financial arrangements comparable thereto; and the price represents the normal consideration for the property sold unaffected by the special or creative financing or sales concessions granted by anyone associated with the sale.

Source of definition: Uniform Standards of Professional Appraisal Practice (USPAP)

Contract Section:

The appraiser has analyzed the sales contract and assumed the information to be accurate and true. No deed or title was obtained by the appraiser. The appraiser assumes no responsibility for any changes or omissions of pages of the sales contract that were not supplied to the appraiser.

Financial assistance was strictly limited to reporting any concessions shown on the agreement of sale. In this market, agreements of sale do not typically include any reference to gifts borrowers may be receiving from any party other than the seller, such as from a parent. That information is also not a matter of public record and is not available from any disinterested party. Unless otherwise stated, the interest rate, loan terms and discounts, if any, and other lending details were unknown to me. Any concessions being paid have no impact on appraised value or marketability.

City	Huntersville	County	Mecklenburg	State	NC	Zip Code	28078
Lender/Client	Movement Mortgage						

Neighborhood Section:

The information reported in this section was gathered by researching the MLS and viewing the area determined by the neighborhood boundaries.

Site Section:

Determination of the flood zone was limited to examination of FEMA flood map; checking the box that answers "yes or no" FEMA special flood hazard area means only that these maps do not appear to report a flood zone at the property location. Scope of work does not include a survey or additional flood research. The client is advised that not all local streams were mapped by FEMA, these maps do not depict individual property boundaries and are vague and poorly defined in some areas. The services of an approved flood hazard insuring agent should be provided for a detailed determination. MLS, or county tax records/GIS provided site dimensions/area. The shape is based on a visual inspection, survey if supplied, or county tax maps when available. View is observed at the site. Zoning classification is according to THE municipality's zoning map and ordinance. It does not include a zoning update inquire at the time of each appraisal or determining if permits for work done on the property at any point in time have been secured. Online county assessment records provide the determination of the presence of public water and/or sewer. Presence of natural gas is reported if a gas meter is seen at the property. Determination about whether an alley exists and whether the road and/or alley are public is based on local maps or a visual inspection. Easements, encroachments, environmental conditions and detrimental land uses are reported only as visually observed at the site or as reported the me during the course of my research. Scope of work does not include an attempt to research subject's title or legal documents. I have no expertise in the areas of law, title searching, environmental hazards or inspection for environmental conditions. No additional verification of any of these items has been attempted and client is encouraged, if concerned, to employ the services of appropriate experts.

Improvements Section:

The rating of condition and adequacy of mechanical systems, (heating, cooling, plumbing, electrical, etc.), is based on visual inspection only. The appraiser is not qualified to render a judgment on the life expectancy or adequacy of those systems.

The testing of systems (structural, mechanical, heating, cooling, plumbing, electrical) and components (such as appliances, fixtures, doors, windows, etc.) lies outside the scope of the appraisal assignment. No warranties are expressed or implied about the condition of these items.

Some degree of deterioration is found in all existing residential structures and the scope of work does not include reporting each and every item of deterioration. Obvious repairs are noted. Not all needed repair/deterioration or remodeling/renovation entries will impact value. In order for one of these items to impact value, that item must meet all of the following three requirements:

1. A typical buyer would be aware of that item when looking at the property
2. The item must be substantially different from what is typically found in competing real estate
3. The item measurably influences the typical buyer to pay more or less for the property.

The scope of work is guided by the purpose of this report and the types of items Fannie Mae specifies are to be reported such as, any physical deficiency, adverse condition judged to affect the livability and soundness or structural integrity of the property. All such items are full reflected in the condition rating and/or in a line item on the sales comparison grid and are judged to have a measurable impact on value or marketability. My scope of work for this section of the report is to discuss any problem areas which meet all three of the following requirements:

1. They are clearly visible based on the scope of my work.
2. The marketplace (i.e. buyers) would not consider them to be typical.
3. It appears, based on my training as an appraiser to judge such matters, that they may affect soundness or structural integrity.

In situations where the appraiser may not be qualified to make that decision, the property will be appraised subject to a satisfactory inspection by a qualified professional.

The properties conformity is based on the similarity to other homes within the subject's neighborhood boundaries. There is a range of housing styles and ages in this neighborhood. This mix is not a detriment to either value or marketability and subject's style is considered to be in reasonable conformity to the neighborhood.

Condition summary: The observed condition of a house is one of the key factors in determining the amount for which it will sell. The condition rating reporting options ranging from C1-C6 are standardized ratings by UAD for the overall condition of a property (See UAD definitions addendum). These ratings are not absolute categories but are relative to comparison within the price range in which the property competes.

If a more detailed inspection or description of the improvements is required, it is recommended that a home inspection be completed. The condition of various systems is based solely on an external cursory observation. I do not warrant or guarantee the property condition due to potential hidden defects and/or problems outside my scope of work.

Sales Comparison Approach Section:

Researching primary sales was completed utilizing MLS and/or county tax records. Private sales with insufficient data were not considered. Sales concession data obtained from MLS have no reasonable means of verification. When MLS data are unclear,

Supplemental Addendum

File No. 230304032

Borrower	Michael & Rachel Galin					
Property Address	8504 Hope Springs Ct					
City	Huntersville	County	Mecklenburg	State	NC	Zip Code 28078
Lender/Client	Movement Mortgage					

the listing agent or tax assessor were contacted. The scope of work for this report does not involve calls to agents or assessors to verify every sale. Comparable sales include a visual exterior observation from the street only.

Intended use and users:

The intended user of this appraisal report is stated on the lender/client line in the report. Use of this appraisal by other users is not intended by the appraiser unless otherwise identified by the client as being an intended user. All other third parties are considered to be unintended users and the appraiser assumes no obligation, liability or accountability to any third party. Any potential buyer or outside lender contemplating purchase or mortgage activity on this property is urged to seek a separate opinion of value from a competent and duly licensed/certified appraiser.

The intended use of this appraisal as stated in the report form is "for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction". No other intended uses have been communicated and none are assumed.

Pursuant to USPAP, this appraisal is developed strictly and solely in accordance with those intended uses communicated to the appraiser at the time of engagement. Please note that only a primary lending institution can make a decision with respect to a mortgage finance transaction. Non-lenders and secondary market participants do not make these decisions and their uses, if any, have not been communicated to me. Use of this report for any use other than the specified purpose shown within the appraisal report is adequate grounds for the report to be considered null and void.

Level of Visual Inspection:

Complete visual inspection of the interior areas of the subject property: A visual observation from standing height of the accessible areas and unobstructed, exposed surfaces of the living area without removal of personal possessions. It includes the visual observation of attached automobile storage, if any, as well as any attached accessory buildings judged by the appraiser to have contributory value. This includes visual observation of basements, crawl spaces and attics, if accessible.

Complete visual inspection of the exterior of the subject property: A visual observation of the unobstructed, exposed, and accessible perimeter of the residential improvements from standing height. It includes the visual observation of detached automobile storage, if any, as well as of any detached accessory buildings judged by the appraiser to have contributory value.

Sales Comparison Comments:

A comparable sale is a property that is similar to the subject property in most respects, is located in a similar (nearby) location, and has sold recently at arms length. The selection of comparable sales is in most residential appraisals the single most important determining factor in establishing value. It is the appraiser's responsibility to adequately research the local real estate market and determine which comparable sales best represent the value characteristics of the subject property. The appraiser's comparable search parameters began with an MLS search for properties sold in the last year, preferably within the past 3-6 months and located in the subject neighborhood within a 1 mile radius. The search included competing properties while attempting to bracket the subject in as many aspects as possible. Cited parameters are based on local market and appraiser expertise and include location, size, age, condition, additional amenities, etc.

The final value estimate for the subject property does not represent the predominant value for residential properties in this market area as shown on page 1 of the report. The subject property is within the stated price range for homes in the area and the fact that the subject property does not represent the predominant value has no adverse affect on the subject's value or marketability.

Comparable selection - Comparable selection - The appraiser searched for MLS listings and sales in the last 12 months in a 2 mile radius for competing properties that are most similar in overall appeal while attempting to bracket the subject in as many aspects as possible. Cited parameters are based on local market and appraiser expertise and include location, size, age, condition, additional amenities, etc. The sales utilized in this report are believed to be the best available as of the date of this report. The appraiser utilized his knowledge and judgment to select comparable sales that represent the best indicators of value for the subject property and made to reflect the actions of typical purchasers in that market.

Sales or Financing Concessions - Comps with up to 3% seller contributions of purchase price are considered reasonable in the subject market place, no adjustments required.

Date of Sale/Time - No adjustments warranted.

Location - All comps are located in the subject neighborhood, defined by boundaries on page 1, experiencing similar external influences and considered comparable without adjustment.

Site - All comparables and the subject are of average site size and are considered similar with no need for adjustment.

View - The subject and comparables share the same neutral, residential view. No adjustment warranted.

Design - The design or style of the comparable sales are similar to the subject. No adjustments were necessary

Quality of Construction - The subject and comparables are of similar construction quality. No adjustments are warranted. See the UAD Definitions Addendum.

Actual age - The subject and comparables, despite age differences, are of a similar effective age based on level of

Supplemental Addendum

File No. 230304032

Borrower	Michael & Rachel Galin					
Property Address	8504 Hope Springs Ct					
City	Huntersville	County	Mecklenburg	State	NC	Zip Code 28078
Lender/Client	Movement Mortgage					

updating. No adjustments were deemed necessary.

Condition - The subject is rated C4. Comp #1 is rated C3. There is a marketable difference between recently udated homes and homes without significant updates that feature more significant wear and tear.An adjustment was made accordingly. See UAD Definitions Addendum.

Gross Living Area/Room Count - GLA typically contributes value at a rate between 20%-40% of total sales price per square foot with actual adjustment amounts being determined largely via sensitivity analysis. The square footage adjustment utilized is a reflection of market reaction in the subject market. The cost of a room feature can be a guide to its contributory value which typically can reflect 50% of cost new. Adjustments were made for room count based on neighborhood and market conditions at the time of this report. The difference between 3, 4, and 5-bedroom homes is the personal preference of the purchaser and has no adverse affect no value. Half baths were adjusted \$5000.

Basement - Neither the subject nor the comparables have below grade finished or unfinished space. No basement area adjustments necessary.

Functional Utility - Refers to, among other things, room sizes, layout and overall livability. All comps are considered to have similar utility in comparison to the subject and comparable without adjustment.

Heating/Cooling - The typical average heating/cooling system is a standard quality central system fueled by gas, oil, or electricity. All comps have similar forced warm air and central cooling systems; no adjustments required.

Energy Efficient Items - Please note that "None" on the sales grid under energy efficient items does not qualify the subject as inadequate or substandard in terms of energy efficiency, but merely establishes that there are no items that are not typically found in the market that would require adjustment.

Garage/Carport- No adjustments warranted.

Porch/Patio/Deck - Adjustments for exterior features have been made based on a blend of local market participant reaction to these items as well as depreciated costs. Porches were adjusted \$3000, and decks were adjusted \$2000.

Reconciliation - Subject property is located in a residential area of average to good quality homes. Many comparable sales both closed and active were considered in making this appraisal. The Sales Comparison Approach to value is reconciled and this is not an averaging technique, but rather a reasoning process. The quality of data can be measured by the adjustments made to the comparable sales and the quantity of data in the subject market place is considered and can also affect the quality of data. The comparable sales reported and utilized in the appraisal are considered the most relevant properties available for comparison to the subject, providing a credible report and reliable value opinion of market value for the subject property.

Weight- Comparables #1 and #2 were weighted heaviest, as comp #1 is the most recent and comp #2 has the lowest adjustment percentage, best reflecting the current market.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered “new” if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner’s site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner’s site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from “stock” standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM
