

II- DFIN Rules

The DFIN is the integrated financial management module which is to be designed entirely.

- The management of operations Purchase / Sale of UV (Telephone refill) of subscription
- The management of operations Purchase/Sale of communication KITS
- The commissioning and billing

All authorizations, orders, financial authorizations via Emails between the EC-team and the subnetworks and networks will be kept,

DFIN will also be the center where all the invoices, commissions between the EC-team and the subnetworks and networks will be visible.

We will have a module that will allow us to enter the material that it is network / sub-network, but to know the exact commissions of each point of sale.

The price of the formula is variable depending on the price of the kit.

Each sub-network/network will be able to access its commissions in real-time, then they will be able to receive by mail, their invoice once it is edited by the admins.

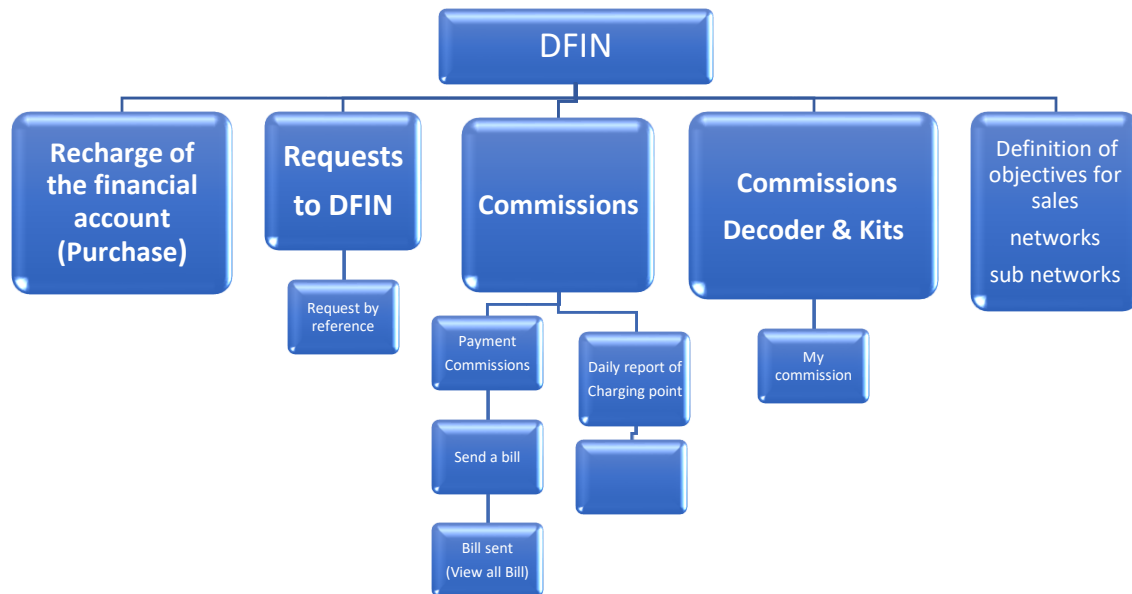

Menu - DFIN

Dashboard → Global performances – Re-subscription – Refill -

A. Department finances → DFIN

Recharge of the financial account (Purchase) - Several types of reloads will be possible (Specify the types of refills)

1. Recharge of the financial account (Purchase)
2. Requests to DFIN
3. Commercial commissions
4. Requests by reference (Reference to be specified)
5. Decoder & Kits Commissions
6. Definition of sales networks and sub-networks

Recharge Financial account:

The financial account is an account held by the provider at Ec-active, the rechecking of this account, at the DFIN allows him to have credit. It is an accounting operation, double with a telephone recharge on the bank account of EC-active.

Requests to DFIN:

We will find all the requests of all types to the DFIN.

Commissions: video → This video traces the procedure of payment of the commissions of a point of sale (PDV)

Refill : video

youtube.com/watch?v=BlI9JNcMIB4&list=PLdoL_VJ8cDryj5rHwCGWY96LZHAain7l2&index=4

Refill's prices – Formulas

- Acces → 5000 XAF
- Evasion → 10 000 XAF
- Acces + → 17 000 XAF
- Evasion + → 22500 XAF
- Tout CANAL + → 45000 XAF

Concerning the commissions, any recharge made within the framework of recharge of the financial account (DFIN) gives right to 5% on the account (by Ali makes a request of recharge to the Admin of 100 000 XAF FCFA, on his account he will obtain 105 000 XAF FCFA.

The commission rate would be managed manually by the admin EC-ACTIV.

Ali on the other hand will be able to see daily, monthly all his commissions and will be able to edit his monthly invoice as soon as he will have edited an email from EC-ACTIV

In the DFIN, the commission rate will be viable and fixable by the administrator according to the promotions. For a recharge operation, the Ec-Team admin will be able to modify the rate via a field with an annotation.

Decoder Kit commission: Each sub-network/network will be able to access its commissions in real time, then they will be able to receive by mail, their invoice once it is edited by the admins.

A.1 – BETWEEN EC- ACTIVE TEAM AND CHARGING POINT/SUB NETWORK/NETWORK

1. Command Order from the Charging point/Sub network
2. Real money transfer by OM of the order amount - (Control from the phone number)
3. Recharge of Financial account
4. Virtual account recharge (DFIN) → This action will be done by the Ec Team.
5. Order form from DFIN - electronically validated by admin and sent by mail/whatsapp to customer

Steps 2&3 are steps, which are processed by EC-Activ team outside the application.

So when you place an order, we will create and install a status to validate manually to go to step 4

A.2- BETWEEN Network / Subnetwork

This second connection happens between Network/Subnetwork . it will not have a validation process with the EC-Activ Admin team, but this information will be sent to the DFIN - Credit to the Subnetwork account / withdrawal of the recharge (Amount) from the Network account.

1. Command order of the Network → Subnetwork
2. Real money transfer by OM of the order amount - (Control from the phone number)
3. Recharge of Financial account

4. Credit to the Subnetwork account / withdrawal of the recharge (Amount) from the Network account -

5.Prepare a CREDIT alert below XAF 45 000 from Subnetwork account - PUT IN A NEW ORDER

Steps 2 are steps, which are processed by EC-Activ team outside the application.

So when you place an order, we will create and install a status to validate manually to go to step 4
